Its archives lay unread in a basement until the late sixties, when they were discovered by two historians and brought to the University of Sussex. The book may have minor markings which are not specifically mentioned. The resulting descriptions of personal and family life presented in Kramer's paper are uniquely rich and reflexive.

HTR is a groundbreaking search technology utilising artificial intelligence to deliver document-level full-text search results in manuscript material. Over people participated in the project at some point between and either sending in diaries recording their daily lives, or responding to questionnaires on subjects nominated by Mass Observation, relating to all aspects of life in Britain. Charles Madge, poet and journalist, and Humphrey Jennings, a documentary film maker, envisaged a London-based project in which a national panel of volunteers would reply to regular questionnaires on a variety of subjects.

Fromthelates,MassObservationbegantomoveintocommercialmarketresearch many of the former M-O researchers were frustrated by the limited scope for reconstruction which Labour politics afforded, and by their experience of formal political office more generally. In Mass-Observation publicly criticised the

Ministry of Information's posters, which led to their being replaced with more appropriate ones.
